

Champagne Blast™ / Handheld Cannons

Champagne Blast™ & Handheld Cannons

The Champagne Blast™ and the Handheld Cannons are very simple to operate and are manually fired. All three utilize a CO₂ cartridge to provide a one time “blast” of confetti or streamers (or both). They are very economical to operate and work well for parties, weddings or other special events. The Champagne Blast™ and the Reusable Handheld Cannon utilize the same canon. The confetti or streamers are loaded in “sleeves” for ease of operation and a high density effect. With proper care, these units are reusable. The Disposable Handheld Cannon comes pre-loaded with confetti or streamers and is a one-use disposable product.
