

# Silent Storm™

Silent Storm (ss)

Silent Storm (t)

## Silent Storm™ Confetti Spreaders; Small Shippable (ss) and Touring (t)

The Silent Storm™ Confetti Spreaders provide a continuous flow of confetti at the desired rate over the selected time frame WITHOUT operator attention. The units are whisper quiet and have a variable speed blower enabling the user to “dial in” the desired flow/effect. With a load capacity of 10–30 pounds depending on the model and materials, the Silent Storm™ can deliver a sustained effect, quietly and effortlessly, for 10 minutes, or more. The Silent Storm™ can be rigged to ducting to deliver confetti to a precise location. Whether mounted in a grid or rigged to a truss, the Silent Storm™ provides a steady fall of confetti to match any artistic intent. The Silent Storm™ runs on 110 VAC power (220 VAC available) and is fully operational through a lighting board dimmer circuit. The Silent Storm™ propels confetti, not streamers.

There are a few primary differences between the Touring (t) version and the Small Shippable (ss) version of the Silent Storm™ Confetti Spreaders: physical size, load capacity, flow rate, effect duration and maximum “throw” of confetti. The “t” version is designed to ship on a tour with high maximum output and a large fill capacity. The “ss” version is designed to meet the size/weight requirements of UPS and correspondingly help manage shipping costs.

To see the various effects possible with the two variations of the Silent Storm™ or to view a how-to-use demonstration, please visit our website at: [www.artistryinmotion.com](http://www.artistryinmotion.com), navigate to the Confetti Equipment page and select the appropriate Silent Storm™.

### Pricing

Please see the Company Overview & Pricing insert card of this brochure for current purchase and rental rates on both versions of the Silent Storm™ Confetti Spreader and related supplies pricing.

Please see the reverse side for additional technical specifications.

## Physical Specifications

|                             |   |   |
|-----------------------------|---|---|
| Weight                      | 152 Lbs.                                    | 125 Lbs.                                    |
| Size                        | 44" L X 20" W X 45" H                       | 34" L X 19" W X 39.5" H                     |
| Power Source                | 110 VAC                                     | 110 VAC                                     |
| Electrical Draw             | 15.3 Amps                                   | 9 Amps                                      |
| Connectors                  | 110 VAC Edison Connector                    | 110 VAC Edison Connector                    |
| Lighting Board Connectivity | Yes   | Yes   |
