

Wireless Big Shots®

Wireless Big Shots® Double Barrel Cannon

Wireless Big Shots® Cannons are double barrel confetti cannons which are fired via a wireless RF transmitter. These units are great for use within line-of-sight firing as they allow for quick and effortless set-up, strike and eliminate the power source consideration as the units are powered via an integrated battery pack. Within the 600 foot operating range, any number of Wireless Big Shots® can be fired with the press of a single button.

The Wireless Big Shots® possess the same effect characteristics and capabilities as the BigShots® Cannon but do not require any electrical cord. Please see the BigShots® insert of this brochure for a performance description.

To see the various effects possible with the Wireless BigShots® Cannon please visit our website at: <http://www.artistryinmotion.com>, navigate to the Confetti Equipment page and select the Wireless BigShots® Cannon.

Pricing

The Company Overview & Pricing insert card of this brochure contains current purchase and rental rates on the Wireless Big Shots® Cannons, supplies and Wireless Big Shots® conversions kits which are used to convert your current Big Shots® into Wireless units.
